Branagh Information Group to Present on
Mobile Technology for Environment Rating Scales, PAS, BAS, & QRIS at FLAEYC

Posted on September 25, 2013

Branagh Information Group's Tricia Sifford will be presenting a live demonstration on the use of *Mobile Technology for Environment Rating Scales, PAS, BAS, & QRIS* at the upcoming Florida Association for the Education of Young Children (FLAEYC) Annual Conference on Friday, September 27, 2013, Session 2 from 1:30-3:45pm in Orlando, FL.

This presentation will demonstrate the use of handheld tablet PCs in the field for collecting assessment data with the *ERS Data System*. Attendees will also learn how the *Q-Star QRIS Data System* seamlessly links assessment, technical assistance and quality rating data into a complete and unified system. Q-Star's analytics tools provide the big picture of early learning quality initiatives that enable an organization to better inform policy and target ever-limited resources.

Please join Tricia on Friday, September 27, 2013, at 1:30pm.
To register for the conference: http://www.flaeyc.org/

About the Presenter
Tricia Sifford, Director, Branagh Information Group
Tricia has worked in the Early Childhood Education (ECE) field for 25 years at various levels, with more than 10 years of experience managing and assisting programs in their quality improvement efforts. Her current position with Branagh Information Group involves supporting users of the Q-Star and ERS Data Systems.   Tricia understands first hand that data collection can easily become overwhelming and time consuming and she is excited to share how to these two data systems can help you efficiently manage your quality improvement efforts.

About Branagh Information Group
The Branagh Information Group (BIG) has extensive experience building innovative research and program monitoring database applications. Our data systems are geared toward early childhood evaluation and quality rating improvement systems. BIG creates customized solutions for early child initiatives that can include online training, mobile assessments and quality rating and analysis.
