

BIG Thinking. Great Results.

Branagh Information Group to Present on the Environment Rating Scales at SCAEYC

Posted on October 1, 2014

Branagh Information Group's Cody Carlton will present ***A Preview of the ECERS-3: The newest addition to the Environment Rating Scale (ERS) Family*** on **Friday, October 3, 2014 at 3:00 p.m. in Salon AB** at the upcoming **South Carolina Association for the Education of Young Children (SCAEYC)** in Columbia, SC.

For over 30 years, educators and caregivers have relied on the ERS family of products to be the most comprehensive and reliable instruments to measure the quality of early childhood programs. After exhaustive research and field-testing, the authors of the ERS will soon release the Third Edition of their flagship assessment tool, the Early Childhood Environment Rating Scale. More comprehensive than previous editions, ECERS-3 will measure both environmental provisions and teacher-child interactions that affect the broad developmental needs of young children.

Please join Cody at SAEYC on Friday, October 3 at 3:00 p.m. in Salon AB for a preview of the ECERS-3. To register for the conferences, visit <http://www.scaeyc.org/>.

About the Presenter

Cody Carlton, E-Learning Director, Branagh Information Group

Cody has more than 18 years of training experience in both corporate and educational settings. He held positions as an early childhood classroom teacher and an adjunct faculty member in early care and education. While at the South Carolina Department of Education, Cody served as the State Anchor/Coordinator for the ECERS-R, overseeing a statewide team of assessors. In his current position with Branagh Information Group, he oversees the development of online training courses for the Environment Rating Scales in collaboration with the Environment Rating Scales Institute (ERSI).

About Branagh Information Group

The Branagh Information Group (BIG) has extensive experience building innovative research and program monitoring database applications. Our data systems are geared toward early childhood evaluation and quality rating improvement systems. BIG creates customized solutions for early child initiatives that can include online training, mobile assessments and quality rating and analysis.
